1. GstarCAD Licensing Options

GstarCAD provides the flexible licensing Options. GstarCAD offers Stand-alone and Network license, both are available with License key and USB Dongle.

Stand-alone license

The software is constrained to a certain host. A license is needed for each computer on which the software will be installed.

Network license

A pool of licenses is available on the server, for use in any computer on the network. You only need to have licenses for the maximum number of simultaneous users expected, not for each computer where the software will be installed.

| | Stand-alone | Stand-alone | Network | Network |

2. License Key Activation

After you install GstarCAD 2021 and start up software, the system prompts you to choose Activate or Trial. In both cases, please select a version accordingly first.

- If you want to try GstarCAD 2021, just select Trial to get a 30-day trial of the software. During the trial period, the product performs as fully activated.
- If you already have a valid license key, you can activate the software directly by selecting Activate to open GstarCAD License Manager. Or you can access GstarCAD License Manager from Help menu- Register.

2.1. Standalone License Key

You need a valid **standalone** license key (serial number e.g. 662E-DE07-0000-0050-8DBE-74A4-0000-0030) to activate your GstarCAD, or you can get/borrow a network license from an existing license server in GstarCAD License Manager.

There are four methods provides in License key tab.

Online Activation: Activate license online

Manual Activation: Activate license manually

Network License: Get license from a network license server

Borrow License: Borrow license from a network license server
